Fall 2016

Dear Winter Storage Customer:

Enclosed is your winter storage contract for the 2016-2017 winter season. **Please complete the contract in full**, sign both front and back and return same as soon as possible with a \$400.00 deposit. Please provide your credit card information on the contract as well. **Reservation for winter storage is a must. We cannot guarantee space if the contract and deposit are not returned by October 1, 2016.**

We call your attention to paragraph one (1) on the reverse side of the winter storage contract. The paragraph discusses the prohibition of outside labor. Outside labor also means people on a boat owner's payroll.

All boats stored on land or in the water for the winter must have HULL & LIABILITY INSURANCE.

As a condition for acceptance of a yacht 35' & up LOA for storage, owners must agree to contract for work beyond normal storage. Examples of additional work are winterizing, shrink wrapping, bottom painting, waxing, spring commissioning or re-fit projects.

Any activity that generates contaminants, such as paint chips or paint dust, must be done according to new DEC regulations. Power sanding must be done with a vacuum attachment. A tarp must be placed beneath the boat to catch dust, chips and paint drips, which subsequently must be vacuumed and properly disposed. The goal is to eliminate waste from reaching our waterways. Strict adherence to the above rules is mandatory. There can be absolutely no wet sanding of bottoms in the marina.

If you plan to sell your boat and would like Willis Marine Center to act as your broker, please let us know prior to hauling, so that the boat may be positioned in a visible location, as space permits.

We will be happy to quote on improvements you may be contemplating such as electronic equipment, carpentry, Awlgrip hull painting, roller furling gear, autopilots, refrigeration, engine installations or modifications, generators, radar, GPS chartplotters, inverters, bow thrusters, air conditioning, etc.

Please call with any questions.

Yours very truly,

WILLIS MARINE CENTER, Inc.
